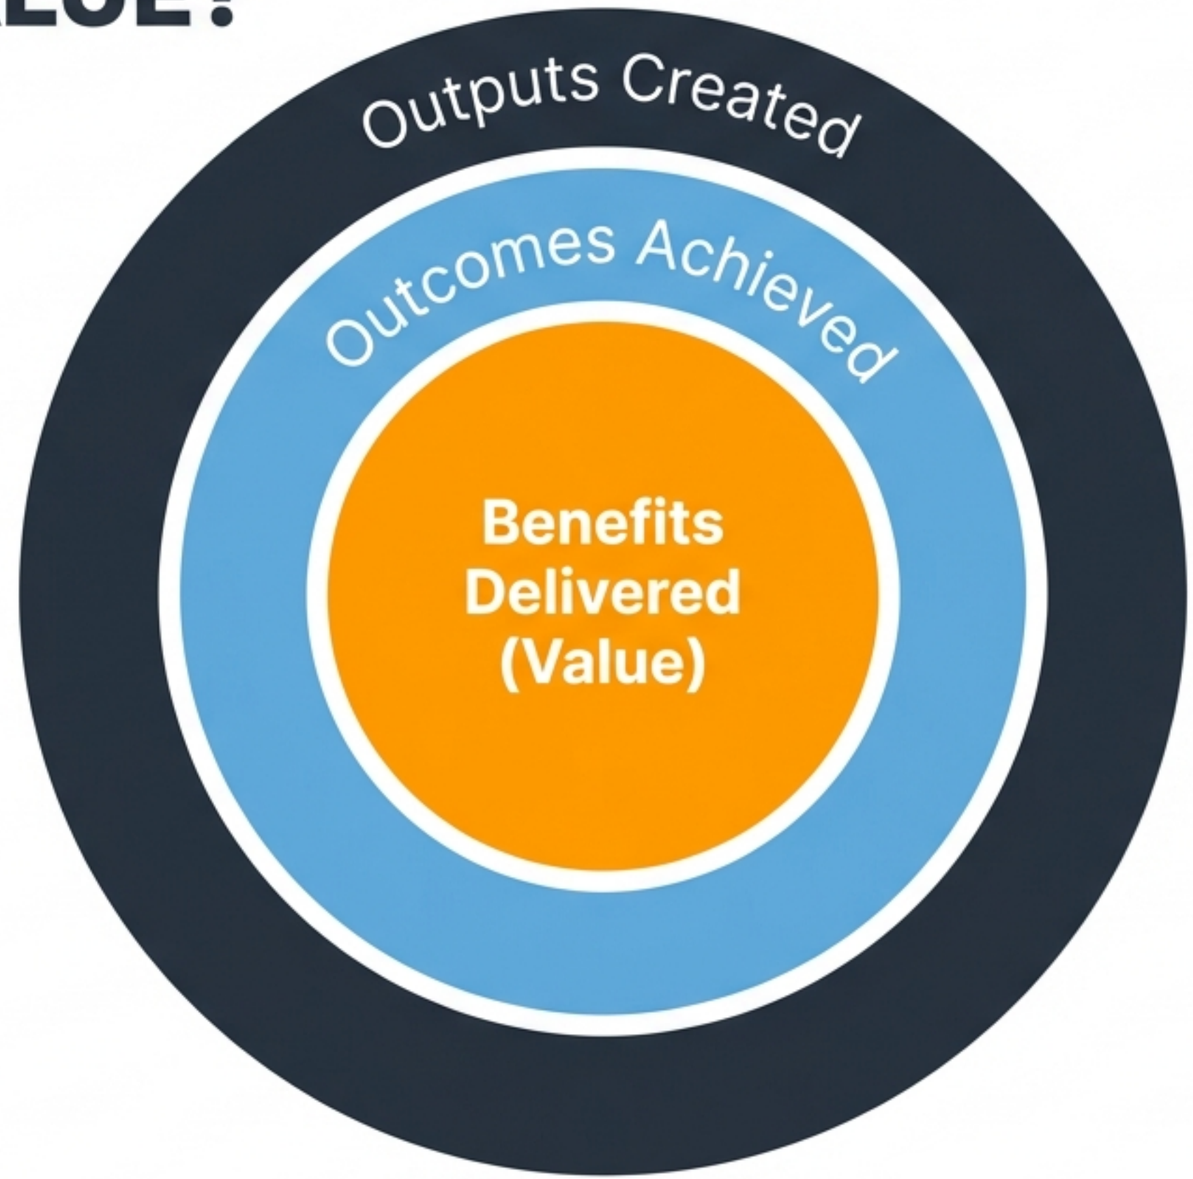
WHAT IS VALUE?

Benefits Delivered

Outcomes Achieved

Beyond Outputs



NotebookLM

DELIVERABLES VS. OUTCOMES

NotebookLM

THE BUSINESS CASE

Business Case

Justifies Existence

Defines Expected Benefits

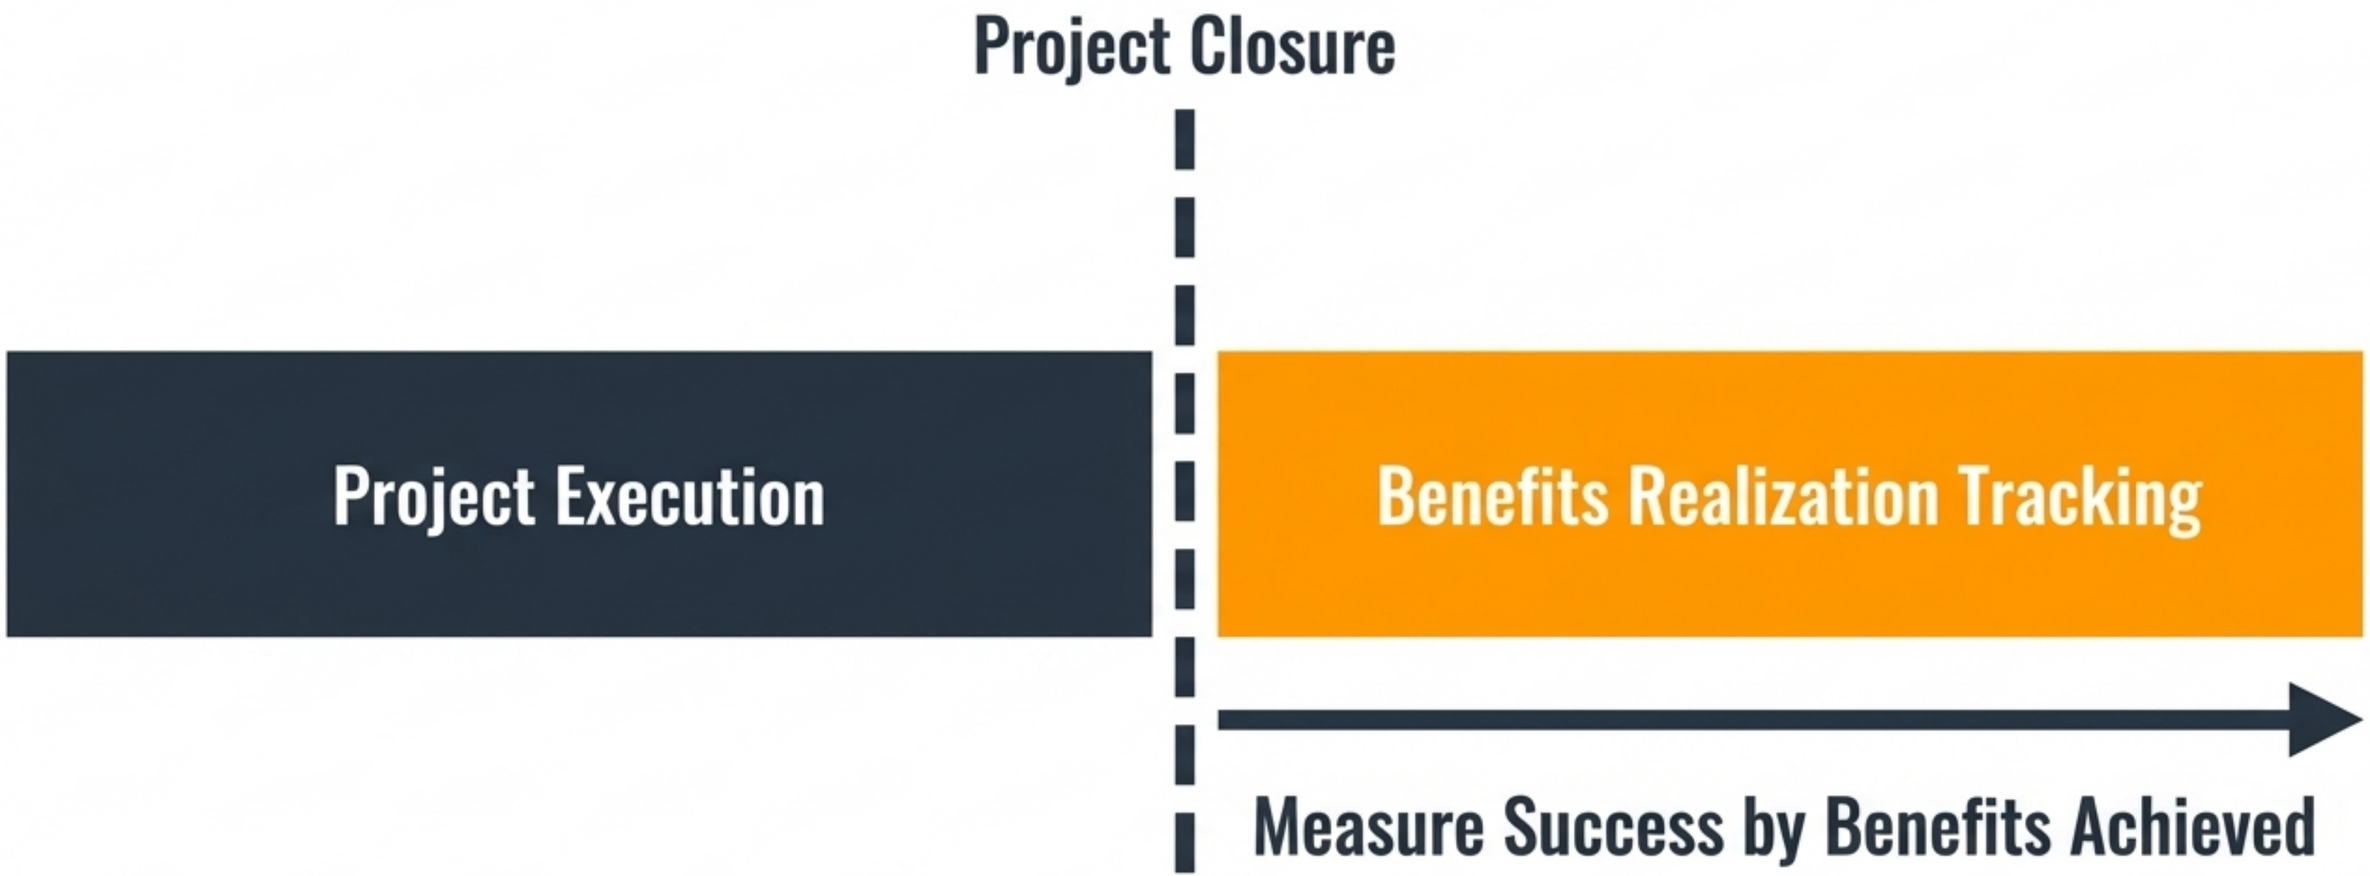
Drives Investment Decisions

Continuous Alignment Required

NotebookLM

BENEFITS REALIZATION

Project Execution
Project Closure
Post-Project Tracking



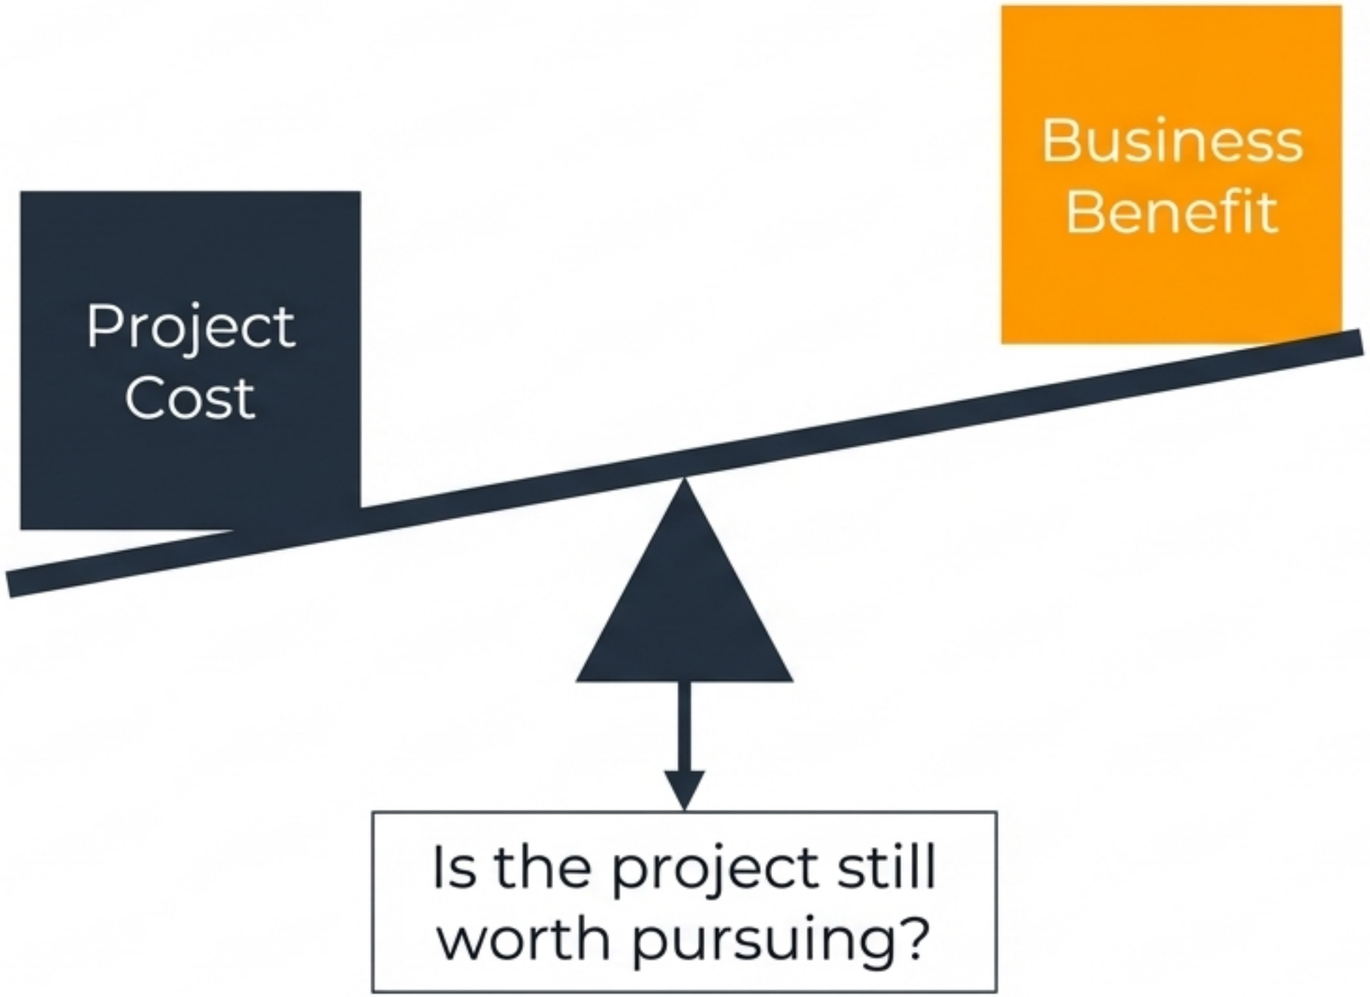
NotebookLM

ROI THINKING

Cost vs. **Benefit**

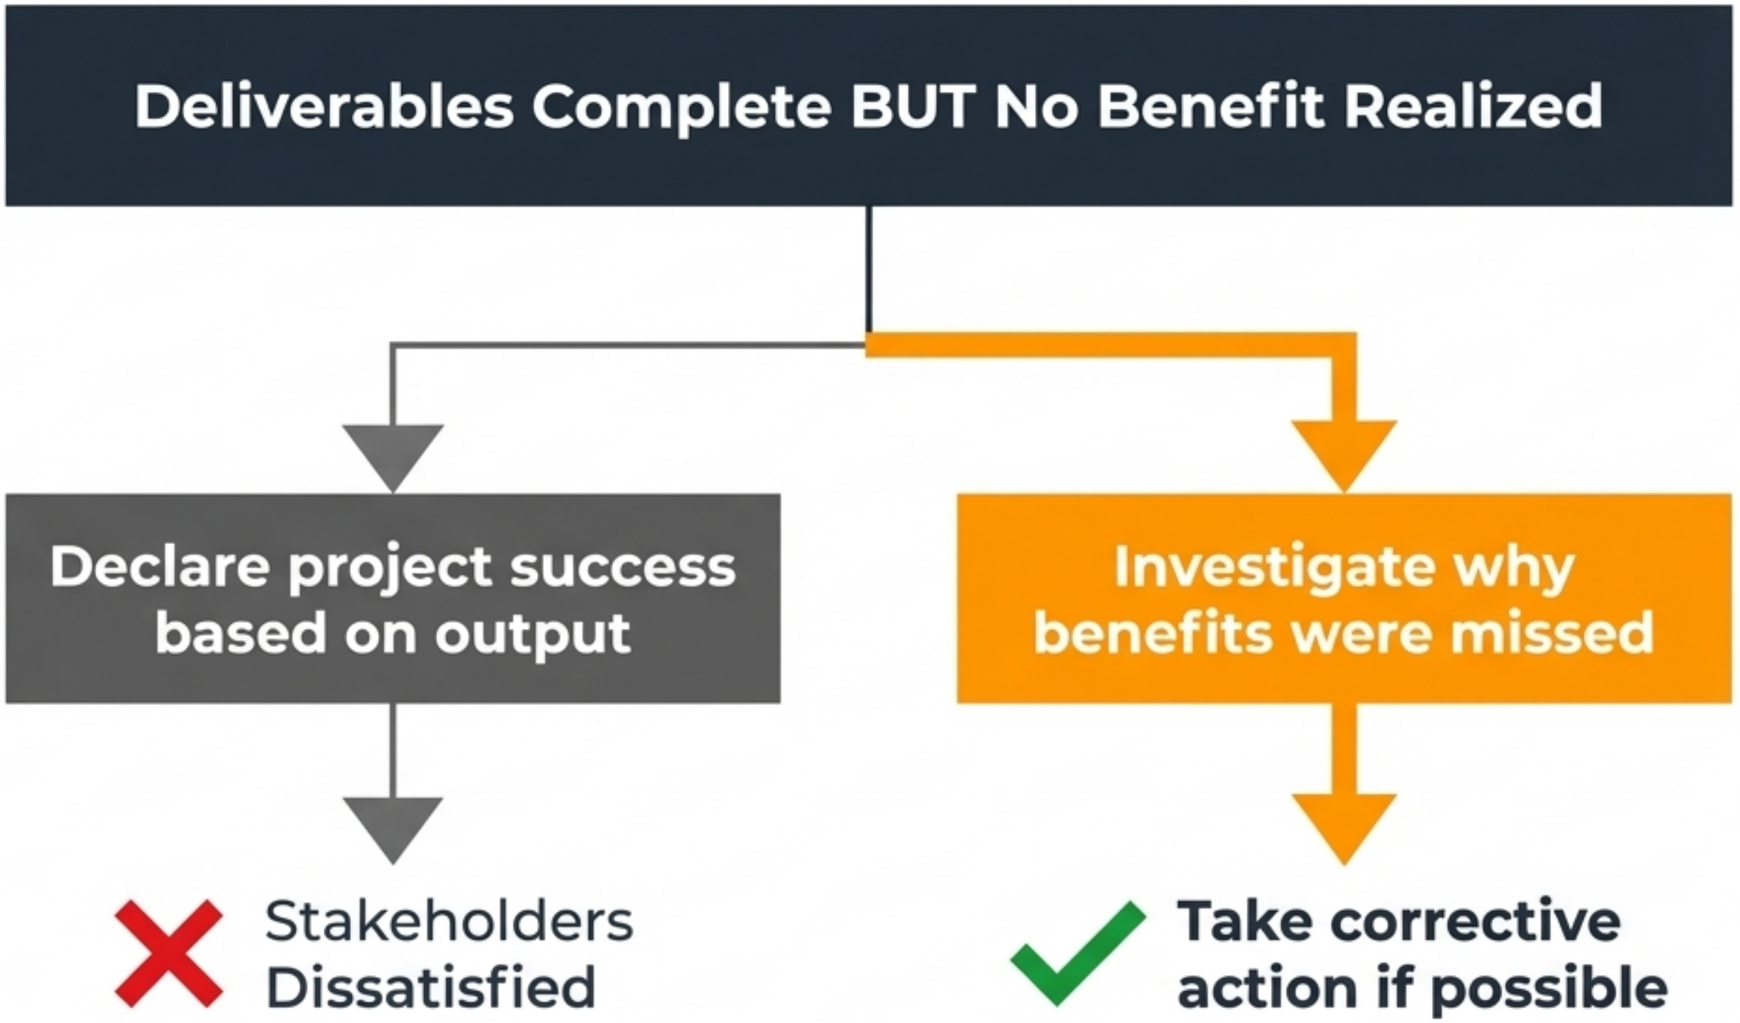
Value Justification

Decision Support



NotebookLM

NO BUSINESS VALUE (SCENARIO)



NotebookLM

COMMON EXAM TRAPS

Exam Traps	PMI Mindset
Focus on delivery only	Focus on outcomes
Ignore ROI changes	Continuous business alignment
Success = Output completed	Success = Value realized

NotebookLM

KNOWLEDGE CHECK

A project has just delivered its final software module. However, the sponsor notes the system will not increase revenue as originally stated in the business case. What should the project manager do FIRST?

A. Close the project since the deliverables are complete.

B. Submit a change request to update the project schedule.

C. Investigate the variance between the outcome and the business case.

D. Reassign the team to a new project.
